

Remarks

Claims 1-28 are pending in the instant application. Applicants have amended claims 1-25 to more fully conform with U.S. practice. Applicants have cancelled claims 26-28, without prejudice.

The specification has been amended to insert a cross reference to the related priority applications. Applicants also respectfully request that the attached abstract be added to the specification on a separate sheet as required.

Applicants submit herewith a Sequence Listing, identical to that which was filed during the international stage, on one diskette and on paper totaling one page. The required statements are also submitted herewith totaling two pages.

Applicants respectfully assert that all amendments are fairly based on the specification, and respectfully request their entry. Applicants believe that the claims, as amended, are in allowable form and earnestly solicited the allowance of claims 1-25.

Respectfully submitted,
